

"Dynasplint® Systems Celebrates 30th Anniversary"

(Severna Park, MD) – Dynasplint Systems, Inc. (DSI), the industry pioneer and leader in Range of Motion therapy equipment, celebrates its 30th anniversary on May 19, 2011 with a year-long campaign, “30 Great Years-30 Great Deeds.” The 750 colleagues of Dynasplint have been divided into 30 teams, each of which has been challenged to do one great deed this year. The only parameter is that the activity line up with the company’s purpose of “restoring people, business and life the way it ought to be.” All community outreach will be chronicled on www.dynasplint.com and blog, Dynasplint Cares www.dynasplint.org

George R. Hepburn, PT, founder and president of Dynasplint Systems, Inc., said, “We at Dynasplint care not only just about our clients, but also about our colleagues and the surrounding communities in which we work. Restoring people, business and life the way it ought to be encompasses many aspects of how we go about doing our work. For our clients using the Dynasplint System, we want it to result in the best possible clinical outcome. For our colleagues, we desire people to be inspired, healthy and prosperous. For the surrounding communities, we aspire to leave a good footprint wherever we are to help make the community a better place. I invite you to look at the chronicle of activities over the next year that will help to achieve these objectives. “

Since its founding in 1981, Dynasplint Systems has served over a half-million patients and has become a trusted home treatment for range of motion rehabilitation for Orthopedic surgeons, Neurologists, and Physical and Occupational Therapists. Dynasplint offers more than 80 rehabilitation devices and provides a therapeutic solution for most ROM issues.

Dynasplint Systems corporate and manufacturing headquarters are in Maryland, and local sales consultants and fitting specialists are strategically located throughout the U.S., Canada and Western Europe.
